The **Elton John AIDS Foundation** was established in 1992 and is one of the leading independent AIDS organisations in the world. The Foundation's mission is simple: an end to the AIDS epidemic. We are committed to overcome the stigma, discrimination and neglect that keeps us from ending AIDS. With the mobilisation of our network of generous supporters and partners, we fund local experts across four continents to challenge discrimination, prevent infections and provide treatment as well as influencing governments to end AIDS.
